

APS membership benefits

Ali E.Yilmaz
Chair, Membership Committee

IEEE Antennas and Propagation Society

- Has a long and storied history
- Members have (and continue) to be responsible for several innovations.
- From Radar to Antennas to Metamaterials etc
- Wide ranging interests
- Vibrant research atmosphere (measured in publications and conferences)
- Moderate sized society (~8000 members)

IEEE Antennas and Propagation Society

- Community like environment
- Vivacious research environment driven by
 - New members who participate in the community
 - New ideas percolate from outside
 - Members volunteer at all levels
- Importantly
 - Members drive/guide the discourse in the community
- Several networking, volunteering and Mentoring opportunities

IEEE AP-S: Membership Benefits

- Standard fare
 - Publications
 - Transactions on Antennas and Propagation
 - Antennas Wireless and Propagation Letters
 - Antennas and Propagation Magazine
 - Access to IEEE Xplore
 - **NEW**: Access to Conference proceedings
 - Reduced registration for IEEE Members

IEEE AP-S: Membership Benefits

- Non standard fare
 - **NEW**: Reduced registration rates at conferences
 - Variety of outreach efforts to industry
 - Through articles in magazine
 - Through topical conferences
 - Special sessions
 - More student awards
 - Explicit outreach efforts to students
 - More student participation in (APS) committees
 - More opportunities to volunteer, mentorship, etc
 - Outreach to undergraduates through “design” competition
