**General information for contributors:** Contributions to *IEEE Antennas and Propagation Magazine* are accepted through IEEE Author Portal at <https://ieeae.atyponrex.com/journal/apm-ieee>. Contributors are encouraged to contact the magazine editor-in-chief before submitting their articles to inquire whether their prospective submission is within the scope of the magazine. Article formatting requirements vary based on the type of article. The authors are asked to consult <http://ieeaeauthorcenter.ieee.org/> and <https://www.ieeeaps.org/publications/ieee-antennas-and-propagation-magazine> for general instructions. Manuscripts should be in English. The editor-in-chief reserves the right to accept, reject, and/or edit any and all material submitted. Submission of material will be interpreted as assignment and release of copyright and any and all other rights as if the standard IEEE copyright and US Export Control Compliance Forms had been signed by the copyright owner. All material associated with contributions may be discarded after the issue containing the contribution goes to press, unless otherwise requested. The nominal deadline for material not requiring peer review or extensive editing is 120 days prior to the start of the month of publication. Contact the editor-in-chief if you have timely material that cannot make this deadline. All feature articles are subject to full peer review per IEEE policy. There is a limit of ten double-column printed pages for all articles. All contributions to departments are reviewed by the associate editor(s) for that department, with additional peer review as

deemed necessary by the associate editor. Conference reports should be no more than two pages and contain no more than five figures.
